

# Making Mould a Thing of the Past

---

**INDUCOAT**  
Leader in surface hygiene

- Sustainable innovation in maintenance

The  
Construction Network  
[www.ConstructNet.org](http://www.ConstructNet.org)

# Your transformation

- More sustainable via less material [spending a lot of money on paint]
- More sustainable project management [less man hours, transport etc.]
- Better certification of anti- bacterial coatings
- Ecological

# Simply Sustainable

- More sustainable via less material [spending a lot of money on paint]
- More sustainable project management [less man hours, transport etc.]
- Better certification of anti-bacterial coatings
- More ecological

---

✓ Less paint

✓ Less labour

✓ Ecological paint

✓ Cherry on the cake: Higher compliance to anti-bacterial standards

# Management summary

---

- Less paint:
- Less labour:
- Dutch gold standard:
- Ecological:
- For patients & personnel:
  - -/- 20% Inducoat
  - -/- 50% Inducoat
  - Dulux is not allowed to be sold in Holland
  - Antimicrobial technology used by Inducoat has Dutch “friendly for humans and environment” classification
  - Cherry on the cake
    - Comparison of current Dulux Antibacterial with Inducoat Anti-bacterial.
    - Factual – based on product data sheets + practice based evidence

# Less paint? Dulux as current standard

Your Measurements:

Total area: 1000.00 m<sup>2</sup>

Amount needed:

Based on 2 coats: 126 liters

This is an estimated based on 2 coats. Actual coverage will depend on the conditions of the surface. If the colour change is strong, more coats may be required.

SOURCE: DULUX, MARCH 2023

# Less paint?

Inducoat as -/- 20% alternative

- 1000 m<sup>2</sup> =
- Based on 1 coat 100 L

# Less labour

---

- Cost per m<sup>2</sup>: 82% labour ...
- 1 coat versus 2 coats...
- Inducoat: 1 layer = 100microns wet / 40microns dry
- On a typical Hospital system this is more than enough.
- Substantial cost savour – 1 Layer less

# Dutch Gold Standard

- Strictest EU compliance
- International recognition
- Simple clarity

# Price?

- Dulux currently at 15.=Euro/L?

# Anti-bacterial? In Holland: focus on Anti-mould

- Same data as before:
- High practical coverage
- 1 Layer System
- CTGB Authorization
